

Rebuff For Russians On Vote Plan At Conference

By LYNN HEINZERLING  
Paris, Aug. 9 (AP)—The Peace Conference today rebuffed Soviet Russia's efforts to apply the two-thirds rule, after a plain-speaking address in which Secretary of State Byrnes declared the United States would not be dictated to.

"We haven't fought to dictate to a free world, or to have one of our allies dictate to us," Byrnes said.

"We are not going to gang up against any nation. We will make concessions—but we will not make all the concessions."

**Russia's Ace**

The conference voted down 15 to 6 the Russian move to require a two-thirds vote for adoption of all conference recommendations. The Rules committee had rejected the two-thirds proposal by the same vote, but Russia yesterday reopened the issue before the full conference.

Russia still has an ace in the hole, however. She can refuse to recognize any actions taken by less than two-thirds decision, when they come before the Foreign Ministers council. This council has veto power over all peace conference decisions.

The conference adopted, 15 to 4, the rules as a whole as proposed by the Rules committee. Poland and Czechoslovakia abstained. The rule on voting as adopted is the British compromise under which both two-thirds votes and simple majority decisions would be considered by the Foreign Ministers council, but with the two-thirds decisions carrying the greater weight. When this came up Soviet Foreign Minister V. M. Molotov said merely:

**Delay Decision**

"We maintain our point of view."

The conference postponed until later a Yugoslav proposal to invite Albania to attend "with a consultative voice." Yugoslav delegate Mosha Pijada said Albania was the first European state "to fall victim to Italian imperialism" and "for six years waged a grim and heroic struggle."

The countries voting for the Russian move to reopen the voting questions were Russia, Byelo-Russia, Poland, Czechoslovakia, the Ukraine and Yugoslavia.

Byrnes told the delegates:

"The people want us to get on with the peace."

"I think," he continued, "that those nations which sent their sons overseas to fight the war should have a right to participate in the peace. I take exception to the charge that those who want to recognize these rights are forming a third world war."

**"All Of Us Agree"**

"It is more than a year since our fighting men won the war," the American Secretary went on. "They worked together, fighting together and dying together."

"We of the Allied countries should show that we are worthy of our sons and daughters. To make peace one must be inspired by the will to make peace."

"Why should we have this intermittent struggle over the right of nations which won the war to participate in the peace?"

"All of us agree that the final texts of treaties are to be drawn by the Foreign Ministers Council, and to be effective they must be ratified by the states which are members of the Council," Byrnes asserted.

**Continuance Of Hearing Denied**

The Public Utility Commission overruled an examiner Thursday and refused to grant Lester H. Frook, operating the Lincoln Bus Lines in Adams county a continuance of a hearing to present more witnesses, an Associated Press dispatch from Harrisburg stated.

Frook is seeking the right to transport persons, baggage and parcels between Hanover and Gettysburg, via Highway route 116. The application has been protested by the Hanover and McSherrytown Bus Co., Inc.

In refusing a further hearing the commission said "nothing appears to explain the absence of the witnesses from the (original) hearing, nor is there any assurance that additional witnesses would be present at an additional hearing, if granted."

**Charge Is Filed After Minor Crash**

A ten-day notice will be sent to Tony Vallesse, Martinsburg, W. Va., Chief of Police Robert C. Harpster said today, on a charge of driving through a stop sign at West Middle and South Washington streets at 3:30 p. m. Thursday.

Harpster said a car driven by Vallesse struck the automobile of Wilbur Lahman, Pen Mar, Pa., at the intersection. Damage to both cars amounted to \$75, the chief said.

METERS NETTED TOWN \$1,800; HALF PAID FOR

The parking meters, installed on Center Square and four business streets in Gettysburg last December, in seven and a half months of their operation have netted the borough enough to pay half their cost and leave approximately \$1,800 profit, a study of the meter returns showed today.

Total cost of the meters was \$16,350. The borough has paid \$8,409.47 of this amount. Two hundred meters were ordered originally, and later 18 more were installed, each costing \$75.

**"Take" On Increase**

It cost the borough approximately \$300 for their installation, according to John H. Basehore, borough treasurer, and approximately \$200 was spent last winter in snow removal which would not have been spent otherwise. The borough pays Mr. Basehore \$50 a month for collections, and maintenance of the meters has added a small additional sum.

Meter collections in the seven and a half months have totaled approximately \$11,000. Collections for part of December and all of January were about \$1,400, and rose to \$1,500 in February. Since that time the collections have averaged \$1,600 per month, according to Mr. Basehore. The receipts reported for July went up to \$1,800.

Meters were installed on Center Square, for two blocks on Baltimore street from the square to High street; on York street to Stratton street; on Chambersburg street all of the first block and part of the second block, and on Carlisle street, first block and part of second.

**Rain And Stenog Delay Court Session**

Injunction proceedings in the Franklin county court at Chambersburg were delayed about five minutes Wednesday afternoon by a heavy rain that prevented the immediate return of Mrs. Annabelle Little, court stenographer, to the court from her lunch hour.

Stranded a block from the court house by a cloudburst, Mrs. Little telephoned the court building to explain her absence. Judge Edmund C. Wingerd announced a "five or ten-minute recess" when informed of the stenographer's plight.

The case before the court involved the Prick company at Waynesboro for which a temporary injunction against mass picketing had been issued last week by Judge W. C. Sheely, specially presiding in the absence of Judge Wingerd. Judge Sheely concurred Wednesday with Judge Wingerd in ordering a continuation of the injunction.

Hanover post 2508, Veterans of Foreign Wars, of which Lemmon was a member, conducted military rites at Rest Haven cemetery with James V. Witmer, post commander, and Roy C. Hart, acting chaplain, in charge.

**RECEIVES DISCHARGE**

S/Sgt. Charles W. Shultz, Gettysburg R. 2, was discharged this week from the army at Ft. Meade, Md.

John P. Butt In Critical Condition

Attorney John P. Butt was described as being in a "critical condition" today at the Warner hospital.

The former district attorney was said to have been "not feeling well" since returning from a camping trip several weeks ago. Wednesday he suffered an internal hemorrhage and went to the Warner hospital by taxi Thursday morning to undergo treatment. Over Thursday night his condition became worse, it was learned today. He has suffered periodically from internal hemorrhages for over more than a year, his physician said. His brother and sisters are being notified of his condition.

**BEGIN BUILDING HOUSING UNITS FOR STUDENTS**

Work on the construction of temporary dormitories at Gettysburg college began Thursday when workmen of the Tobias Heller and Son company of New York began digging holes for piers or pillars on which the former army structures will be placed.

The concrete columns will extend at least 28 inches above the ground, William Henderson, of the Heller company, foreman for the local work, said today. That figure is the minimum distance allowed between the floor of the structures and the ground.

**Former Army Equipment**

Henderson, who came here from Hagerstown where he was engaged in similar work, said that the army structures are expected to arrive sometime next week.

Whether the former army mess halls and barracks will be completely torn down or will arrive in sections was not known. Henderson said that on similar work elsewhere the barracks arrived in sections.

Former mess halls will be converted into dormitories for 200 students while former barracks will be used as housing units for married students.

**Mother Seeking Child's Custody**

An East Berlin mother seeks custody of her two-year-old son residing with her divorced husband in a habeas corpus action instituted in the county court at York.

A petition, filed in the office of Prothonotary David P. King asks the court to award the "care and custody" of Robert William Walton to his mother, Evelyn Pearl Walton. The petition is directed against the child's father, Robert Boyd Walton, from whom the mother is divorced.

The plea sets forth that Mrs. Walton desires to place the child with her in the home of her parents, Mr. and Mrs. Raymond Hoffman, East Berlin, where she is residing.

It is charged that the child is now being "illegally restrained" at the home of the paternal grandparents, Wellsville R. D. 1, where the father resides.

Judge Ray P. Sherwood directed the writ of habeas corpus to be issued returnable August 10 at 2 p. m. (EST). The father is ordered to produce the child in court and to show cause if any why the child should not be delivered into the custody of the mother.

1500 PEOPLE AT BENDERSVILLE'S CARNIVAL FETE

Bendersville's Firemen's carnival got off to a good start Thursday night with an estimated 1,500 people jamming the various activities provided.

The activities marked the beginning of a three-day festival that will be climaxed Saturday afternoon with the dedication of the new baseball diamond, "The Apple Bowl" built by the fire company, as a memorial to soldiers of World War II.

Dr. Harvey D. Hoover, of the Gettysburg Lutheran Theological seminary, will be the speaker at the exercise scheduled to start at 5 p. m. with Attorney Leighton C. Taylor, Bendersville, as master of ceremonies. Music for the occasion will be provided by the Blue and Gray Band of Gettysburg. Dewey E. McCauslin, fire company president, is general chairman for the affair.

The crowd at the carnival grounds Thursday night filled the front portion of the huge "apple bowl" with their cars and then jammed all of the various activities provided at the affair. Hundreds thronged before the bandstand where the Vigilant Hose Company Band of York presented an evening concert. Seats provided for about 200 were quickly filled.

**Food Pleases Throng**

Cool breezes from the mountains surrounding the bowl caused most patrons to put on light coats and probably helped provide the appetite for the crowd which ate, among other things, 42 chickens, in the form of hot chicken sandwiches, and chicken soup.

Hot chicken and hot beef sandwiches and the soup, were the principal items ordered by the hundreds who kept the auditorium of the community center, where the food was served, filled until well after 11 o'clock.

M. I. Rice and W. A. Cline, in charge of the watermelon stand found themselves surrounded by youngsters, who, with the aid of adults, consumed huge quantities of the well ripened melons.

**Youngsters like Ponies**

Harry Tuckey was kept busy with his committee in handling ponies on which apparently every youngster present had at least one ride during the course of the night.

Eugene Howe and Richard Cline and their assistants were busy handling ice cream, soft drinks and hot dogs in a pavilion to the rear of the community center. Games of all sorts were heavily patronized while W. D. Taylor, H. H. Orner, H. W. Lerew and others in charge of the bingo game found their tables constantly thronged.

The parking committee included W. A. Cline, Merl Black, Frederick Kuntz, Arthur Cluck, Chester Ogden (Please Turn to Page 2)

**'Home Folk' To Serve Vets From Eight Food Stands**

"Home folk" residents of eight Adams county communities will have charge of this number of food stands to be erected on a college field north of Broadway and east of the Mummashburg road for the Welcome Home celebration for veterans of World War II of Adams county next Wednesday evening.

Other communities which will operate food stands, and their chairmen, are: Arendtsville, Arnold Orner; Biglerville, Blaine Walter; Littlestown, Mrs. Hilda Bish; Littlestown R. 1, Walter Crouse; McSherrytown, Richard Cratin; New Oxford, Fred Klunk; Fairfield, Clarence Wilson.

The community groups are to report at the stands at 3 p. m. Eight will act as dispensers at each stand; two as sandwich makers; one will have charge of the coffee and one of the lemonade, and each stand will have two "runners" whose job it will be to keep the stand supplied with roast beef, rolls, etc., from the main refreshment stand.

Just arrived, nice line of new fall hats, Emma Kuhn.

**COL. HERSHEY GETS CALL TO REGULAR ARMY**

J. Richard Hershey, Gettysburg R. D., has been ordered to duty with the regular army, it was learned today.

Hershey, a lieutenant colonel in the U. S. Army Reserve during the war, had been separated from the service when notified in June that his application for a commission in the regular army had been accepted. He was given the permanent rank of captain at that time.

It was learned today that he will report for duty with the rank of lieutenant colonel. Hershey has resigned his post, resumed after his returned from war duty, as park engineer and forman for the Gettysburg National Park, Dr. J. Walter Coleman, superintendent of the park said today.

**Served With Engineers**

It was expected that he would be assigned to an engineer outfit, as his reserve duty was with the engineers. With the park service here for seven years before being called to active duty in 1940, Hershey was commissioned in the Reserve through the ROTC. He received an engineering degree from Gettysburg college. In 1933 he transferred to the army's Corps of Engineers while a member of the Reserve.

During the war he commanded a demonstration battalion of engineers and later was on occupation duty in Japan until January of this year.

For a time, during World War II he was detailed to the Army and Navy Munitions board as an engineering officer and helped in that post to form policies for priorities on construction equipment and materials.

**ATTENDANCE RECORDS SET BY BRETHREN**

The fifty-fifth annual Ministerium and the forty-eighth Sunday School conference of the Southern district of Pennsylvania, Church of the Brethren, came to a close Thursday afternoon at the Marsh Creek Church of the Brethren after setting an attendance record of approximately 500 persons at the Wednesday and Thursday sessions.

The meetings were attended by capacity crowds both days, and the attendance was the largest in the Marsh Creek church in many years. Heavy rains Tuesday evening cut down the number who attended the opening session that night, however. Thirty-nine Sunday schools, with 76 delegates, were represented.

The Ministerial conference chose the Rev. J. I. Thomas, Smithburg, Md., as moderator for 1947. The Sunday School conference named the Rev. Bernard King, York, as its 1947 chairman. Next year's meeting will be held at the Ridge church, near Shippensburg.

Emphasis of the convention sessions was placed on evangelism, the Christian home, Christian education, spiritual growth and moral problems that face the church of today. The conference was inspirational and educational in its approach to an understanding and solution of these issues.

Dr. F. Henry, Huntingdon, Pa., and President A. C. Baugher of Elizabethtown college were the visiting speakers. Doctor Henry's emphasis was on the church and evangelism, while Doctor Baugher spoke on Christian education, dealing with the theme, "New Skylines in Education."

Eligible candidates should send their photographs to the York chamber of commerce with their name and address, date of birth, weight, height, schools attended, school and club activities and present occupation. The York district queen will be chosen at a dinner in honor of the candidates to be held at the Yorktowne hotel August 16 at 7 p. m. Judging will be on physical beauty, personality, poise and voice.

**Exonerates Times In Erroneous Article**

Mrs. Ida R. Newell, of Seven Stars, who celebrated her birthday anniversary on July 31, a story of which was published in The Times on August 2 with an accompanying illustration of five generations of the Newell family, today refuted some of the statements published in the piece.

Mrs. Newell told The Times that she had not been consulted with reference to her age, that she had not refused to reveal her age. She also stated that she came to Seven Stars in 1919 from Frederic county, Va., and not from Berkeley Springs, West Va., in 1917, as stated in the article.

Mrs. Newell also stated that The Times is not at fault in publishing the photograph, to which she had no objection, nor is responsible for the erroneous statements in the piece. She exonerates The Times of all responsibility.

The Times received the information and photograph in a signed communication and later confirmed the details as published in two telephone conversations with The Times' informant.

PREPARATIONS FOR PEACE AND WAR ARE MADE

By J. M. ROBERTS, JR. (AP Foreign Affairs Analyst)

While the delegates were gathering in Paris for what someone has described as "an Allied conference to make peace among themselves," one of the world's great humanitarian organizations—the Red Cross—was meeting in Geneva and, among other things, discussing preparations for war.

A correspondent writing from the former seat of the League of Nations, where numerous organizations have met this year in the interests of the general welfare, says:

"Geneva is optimistic about their town's future as a center of international goodwill and peace. However, the general hopefulness is somewhat clouded by a shadow emanating from the discussions at the International Red Cross conference, where delegates are unanimously concerned about the threat of a future war, which all think possible."

"Oases of Humanity"

Delegates are said to have discussed "with greatest interest" a Bolivian proposal which called for the establishment of security zones for mothers and children in war areas, as far as possible from military objectives and industrial centers, where life and education could go on while their menfolk sought to destroy each other.

A strikingly similar idea comes from 48 members of the Swiss Parliament, who have suggested that their government should propose, at forthcoming international conferences, the creation on all continents of "oases of humanity" consisting of whole neutralized countries where people of all nationalities could seek refuge during wars. The proposal, in the form of a public appeal, says "thinking humanity is more and more convinced that the end of the last war has not brought a true peace" and that "the gap between west and east grows even larger."

"There is no other way," the statement continues, "to save millions from certain death than to create these oases of humanity where every man would have the same rights whatever his nationality and where his economic situation would be assured."

There immediately arise numerous questions with regard to the possibility of implementing such programs. But it is not their feasibility or even their desirability, that makes them important. It is the idea behind them—the situation that causes people to be thinking along these lines: a striking commentary of the times that the Paris conference should be coincidental with the cry from Switzerland:

1,500 PERSONS

and H. F. Quigley. Vehicles were parked on the front end of the "apple bowl." They entered by the alley running past the community center and left by another alley extending to Hill street.

Both the old and the very young were much in evidence at the carnival. Some of the grandparents among the crowd termed the affair one of the best they had ever seen. Babies in arms who looked brightly about at the lights and activities seemed to agree.

The baseball stars of the next ten years practiced their skill at a popular ball game in which they attempted to knock down wooden milk bottles.

REA Unit Not Hit By Steelman Order

Directive No. 128 issued by OWMR Director John Steelman which halted governmental allocations to approximately 1,000 REA cooperatives will in no way affect the Adams county electrical cooperative, C. A. Cluck, manager of the local organization, said today.

The cooperative, which serves nearly 3,600 farmers in Adams and nearby counties will continue with its expansion program as scheduled, Cluck added. The cooperative, which borrowed money from the Rural Electrification Administration in order to start several years ago and which has borrowed additional sums to meet expansion needs since, has no allocations before the REA at the moment. Manager Cluck said:

"Since it was established the local cooperative has been repaying the government, with interest, on the money borrowed and it has enough money on hand to continue its present expansion program," Cluck added.

The directive, issued Monday by Steelman, declared a moratorium at least until October 1, on the \$160,000,000 Federal construction program in order to help cut down the danger of inflation.

RECRUITERS' OUTING

Members of the army recruiting staffs in the cities of the Harrisburg district, which includes Gettysburg, will attend a recruiting forces outing at Hershey park Saturday, with their families and guests. Sgt. Walter Stubbs, in charge of the Gettysburg office in the court house here, will be one of those attending, he said today.

IRON OUT LAST DETAILS ON SALE OF PIRATE CLUB

Pittsburgh, Aug. 9 (AP)—The new owners of the Pittsburgh Pirates took a brief look today at the headache they acquired along with the club—the problem of the American Baseball Guild—and then plunged into the job of ironing out last financial details of their more than \$2,000,000 transaction.

Affable, cigar-chewing Frank E. McKinney, the Indianapolis banker who is the new president and part-owner of the Pirates, said he had "high hopes" that current negotiations between Major league players and management would settle the troublesome labor union issue.

McKinney and Bing Crosby—famed movie and radio star—head a four-man syndicate which bought the National league's last place club yesterday for a price reported to be close to \$2,225,000. The sale was made by William E. Benswanger, former Pirate president. He acted as agent in the deal for his mother-in-law, Mrs. Barney Dreyfuss, now ex-chairman of the board.

Election Aug. 20

Other syndicate members are John W. Galbreath, 49-year old Columbus, Ohio, realtor; and Thomas J. Johnson, 32, Pittsburgh attorney.

McKinney, who also is co-owner of the Indianapolis club of the American association, said all four men had "about an equal share" in the investment.

The new president said he would explore the guild situation as soon as possible. "I am not familiar with the circumstances and facts of the guild," he asserted. "We will go into that as soon as we get the final financial angles cleared up."

The Pennsylvania Labor Relations board has fixed Aug. 20 for a collective bargaining election among the 31 Pirate players in a precedent-setting decision in which the state agency assumed jurisdiction in the fight to unionize baseball players.

Robert Murphy, guild organizer, claims he holds membership cards for 26 of the Bucs. The State Labor board ruled that professional baseball is commerce and therefore within the jurisdiction of the state's "Little Wagner act."

DEMOCRATS LAY FALL PLATFORM

Harrisburg, Aug. 9—Democratic party platform makers gathered today to begin the job of putting together what its chairman, Rep. H. G. Andrews (D-Cambria), called "A general statement of principles" for the 1946 election.

The 10-member committee, meeting for the first time as a body, already had material for planks on labor, veterans, juvenile delinquency and education for various groups and expected to receive a lot more in coming weeks.

First labor suggestions came from the Pennsylvania Federation of Labor-AFL which urged the party call for liberalization of the workmen's and unemployment compensation laws, a state fair employment practices law, a bonus for veterans, and a law barring labor injunctions except after trial by jury in a common pleas court.

James L. McDevitt, state AFL president, also suggested amendment of the state unemployment compensation law to eliminate a provision which the state board of review has found makes all employees in a plant or factors ineligible for jobless benefits if the concern is closed by a strike of one group of workers.

With Col. John S. Rice, Democratic candidate for governor, expected to take a leading hand in drafting the party's program, Andrews said the completed platform will be submitted to the state committee for ratification in September.

Juveniles Held In Attack On Woman

Greensburg, Pa., Aug. 9 (AP)—Westmoreland County Detective John Chrin said today two juveniles, one 14 and 16, were held today on charges of assault and that 19-year-old Steve Mazurek of Benezel was sought on a warrant charging assault and robbery.

Chrin said he caused warrants to be issued for all three by Alderman Paul Thomas of Greensburg on complaint of a Blairsville woman, past 40, who said they attacked her Sunday night.

Chrin said the woman told him she was asleep in an automobile when the three covered her with a gun, forced her out, made her walk two miles to a secluded spot and attacked her, after threatening her life.

The two youngsters admitted the attack to him and identified the older youth, Chrin said. He added that they said the gun used by Mazurek was a toy pistol.

Health Officer Is Upheld By State

Harrisburg, Aug. 9 (AP)—Action on the part of Dr. George Good, Butler health officer, in releasing children from Camp Gail, near Butler, following an outbreak of infantile paralysis at the camp, has been upheld by state Department of Health officials.

Dr. J. Moore Campbell, deputy secretary of health, said yesterday that the state's inquiry into protests from Pittsburgh health authorities against the release of the children last week resulted from "a misunderstanding."

The investigation was ordered after Dr. Hope Alexander of Pittsburgh said the children should not have been released so that they might return to their Pittsburgh homes without his consent.

ATLANTIC ISLES SHAKEN BY NEW EARTH TREMORS

Port-Au-Prince, Haiti, Aug. 9 (AP)—Planes rushed help today to stricken areas of Haiti, the Dominican Republic and Puerto Rico, shaken anew yesterday by earth tremors described as worse in some regions than those which cost at least 30 lives last Sunday.

The fresh shocks—believed to come from a shift in the bed of the Atlantic ocean at its deepest point, 28,680 feet, about 50 miles northeast of the Dominican Republic—sent another tidal wave smashing across leveled towns of the Dominican Republic and spread panic among residents of many sections. No casualty figures were available.

Towns along Mona Passage—the rough stretch of the sea separating the Dominican Republic and Puerto Rico—appeared to be hardest hit by the tidal wave. Matanzas, on the Dominican northeast coast, felt the full force of the wave, but many residents of that town already had fled to the interior. Earlier reports said 525 houses were destroyed in Matanzas Sunday.

158 Shocks

Many buildings which withstood the previous shocks—the Guayando observatory in San Juan, Puerto Rico, said there had been 158 since Sunday—crumbled during a 40-second tremor yesterday morning and reports from the Dominican Republic said panic-stricken people jumped from balconies to the street. Frightened residents refused to spend the night in their homes and stretched out in the open.

In Haiti, which jointly occupies Hispaniola island with the Dominican Republic, the tremors knocked pedestrians off their feet, while in the Puerto Rican towns of Aguadilla and Mayaguez panic developed. In Ponce, on the Puerto Rican south coast, school children rushed from classrooms.

In Ciudad Trujillo, capital of the Dominican Republic, the U. S. Embassy sent a request to naval district headquarters at San Juan for doctors and nurses.

## COLLEGE TEAM DEFEATS LOOP ALL STARS 4-2

pair of unearned runs in the half of the ninth inning gave Campus All-Stars a 4-2 victory over the Community Softball League All-Stars in a well-played game Thursday evening on the college field.

Early 300 fans attended the contest which resulted in \$49.08 being added to the league treasury. Falt Kaczowski, second baseman the collegians, proved to be the gun for the winners by driving all of the victors' runs. With out in the seventh and Barclay first base as the result of a single, Kaczowski hammered a homerun down left and center field to tie the score at 2-all. After a pair of errors had permitted Barclay and Kaczowski drove out a triple to tie up the contest. The game had been scheduled as a nine-inning test.

**Huris Well**  
George Fair, who went the distance on the mound for the league team, pitched one-hit ball until the eighth.

The league lads pushed over a run the first winning on successive hits to Drach and Donaldson powered by a hit by Johnson. In the fourth inning the league tallied its final run and bareliffed a second run. Donaldson off with a single. After Johnson Stonessifer popped out, J. Hess needed for a double. Wright was on Fisher's wild throw to first.

Donaldson scoring. Baker landed to shortstop and Wright snipped at second when he over the base, the umpire ruling Hess not tallied before the out. On Wednesday evening the collegians defeated Dickinson 5-4 on a local field.

## TONY LAZZERI IS DEAD AT 42

San Francisco, Aug. 9 (P)—"Poosh-Up" Tony Lazzeri former New York Yankee ball player and one of the "Murderers" row of hitters with Babe Ruth and Lou Gehrig, is dead at 42.

The body of the popular big league player, who started baseball as a youngster on San Francisco's sand lots and played in seven World Series, six with the Yanks and one with the Cubs during the 1930's, was found in his suburban home Wednesday by his wife, Maye, and a brother-in-law, Louie Servente, when they returned from a vacation.

Investigating physicians said Lazzeri died either of a heart attack or the result of a fall. The body was found slumped at the foot of a staircase near the entrance of the home. He had been dead an estimated 36 hours when found.

Lazzeri starred with the Yankees 12 years and in addition to Ruth and Gehrig, numbered among his teammates Frank Crosetti, Herb Brock, Bill Dickey, Walte Hoyt and Earle Combs.

He went to the Cubs with the Yanks in 1937, then to the New York Yankees where he wound up his major league career. He became manager mid-season of the Toronto club in the International league. After serving as a utility man in 1941 for the San Francisco Seals of the Pacific Coast league, he was released on his own request and in recent years had been the operator of a farm in San Francisco.

## Softball League Will Meet Monday

Plans for the coming playoffs and election of a new president will be included in the business transacted at an important meeting of the Community Softball League Monday evening at 8:30 o'clock at the fire engine house.

Ronald McClellan, who had been president since the organization of the league last spring, enlisted in the army this week and is now at Ft. Meade, Md.

Efforts will be made to adjust the schedule in order to determine the four top teams for the playoffs, which are listed to begin the week of August 19.

## COUNTY LEAGUE HAS IMPORTANT GAMES CARDED

With the final regularly scheduled games in the Adams County Baseball league carded for August 17, the week-end games hold importance inasmuch as they will mean much in determining the ultimate play-off spots for the four top teams.

It has been announced that the game between Arendtsville and Orrtanna will be played on the former's field Sunday afternoon at 2 o'clock instead of Saturday afternoon.

At present Arendtsville holds a one-game margin over Fairfield for the league lead. While Orrtanna, fifth place team, retains a chance of forging into the playoffs if it can win its two remaining games while Emmitsburg is dropping two. C. Rebert and Wetzel will be the battery for Orrtanna while the Apple Pickers are expected to use S. Singley and Allison, who performed for the Arendtsville high school nine.

Fairfield and Emmitsburg clash on the Fairfield diamond Saturday. Fairfield is hopeful of at least tying Arendtsville for the lead while Emmitsburg needs but one victory to assure itself of the right to take part in the playoffs.

**Penn-Maryland Tilt**  
McSherrystown, now holding third place, will play Bonneauville on the latter's field. Bonneauville is tied with Bendersville for seventh place. Littlestown and Bendersville clash at Bendersville in the dedicatory game for the "Apple Bowl," Bendersville's new baseball field.

Games listed for Sunday in the Penn-Maryland league follow: Thurmont at Wakefield, Taneytown at Hanover, Harney at Littlestown, Emmitsburg at Middleburg, and McSherrystown at Blue Ridge Summit.

## Moose Softballers Face Reading Sunday

The Moose softball team will clash with the Reading Moose on the Bonneauville field Sunday afternoon at 2:30 o'clock.

On July 14 the local team lost at Reading, 6-3. The Reading lodge-men have one of the strongest teams in a city league at Reading.

## FELLER BLANKS CHICAGO AS HE BREAKS RECORD

By JOE REICHLER  
(AP Sports Writer)

It is still too early to compare Bob Feller, Cleveland's great right-hander, with such pitching immortals as Walter Johnson, Christy Mathewson, Cy Young and Grover Cleveland Alexander, but at the rate he is moving along, the former boy wonder appears a cinch to be voted a place in Baseball's Hall of Fame just as soon as his pitching days are over.

The Indians' mound master shattered a 36-year-old standard yesterday when he racked up his eighth one-hitter as he blanked the Chicago White Sox 5-0 in the first game of a doubleheader.

With just eight big league years behind him—only five of them complete—Rapid Robert has two no-hit masterpieces to his credit, in addition to his eight one-hitters and has allowed fewer than five safeties in 20 other games. He holds two strike-out marks—most in one game, 18; and in two consecutive games, 28; and is one of five American leaguers to fan six men in succession.

**Indians Split Pair**  
Although never on a pennant winner, Feller has won 24 or more games three times and appears a cinch to make it four this season with 21 victories under his belt.

Despite Feller's masterpiece, the Indians could do no better than gain an even split when the Pale Hose nine fought back to nip the Tribe 7-6 in the 10-inning nightcap. The Boston Red Sox whipped the lowly Philadelphia Athletics twice 4-3 and 10-6 despite being outthit in each fray.

The Yankees remained 13 games behind the Red Sox by sweeping a twin bill from the Washington Senators 9-3 and 13-1.

**Phillies Divide**  
Pete Reiser drove in all the Brooklyn runs in a 3-1 victory over the New York Giants.

## Today's Talk

### THE AFTERGLOW

When the last gleam of hope is gone and a man or woman enters his or her last, long sleep, the voices of those who were wont to decry and criticize remain silent. The afterglow of a human being's life is the only correct criterion by which he or she can justly be appraised.

Then it is that the little kindnesses, the unheeded acts of generosity, and the endless, hidden services of good will and genuineness shine forth. We are all creatures of error and often thoughtless blundering. But the great and enduring in a human life at last rise to the surface, like rich cream from the body of the milk.

Say what ill you wish of a man or woman while he or she lives, there are always those who will say the opposite. It all depends upon the angle from which you wish to view the work and service of a human being. Our own viewpoint may often be distorted. An enemy is a potential friend!

How we all wish that our foolish acts could only be wiped from our memory. In our mellow maturity we look back upon them and wonder at our lack of tolerance, our senselessness, or our misguided understanding. Many years ago I read the statement somewhere that when a great man dies he leaves a glow of light long into the night. Nature has an illustration. After many a cloudy and stormy day all becomes silent, the clouds break, the sun lowers, and there is an afterglow of peace and beauty.

Shakespeare's reference to the candle, throwing its tiny beams afar, may be duplicated in the invisible candle that many a one keeps forever lit in his heart, throwing its small gleam into many a life, brightening and blessing it. We all know of such human beings, and no amount of evil blowing can extinguish that ray of light.

The unselfish deeds and innate nobility of a person are what live on as the afterglow. The rest fades away and finally is forgotten. The good that a man does keeps traveling. There is no end to its destination.

Tomorrow Mr. Adams will talk on the subject: "While Time Goes on."

### FOOLISH AND WISE

"Men do such foolish things!" they say—

The women—may the good Lord bless them!

"They throw, for stamps or books, away

The money which should go to dress them."

Men pledge devotion, one and all,

Unto some lovely girl to win her.

Then go to see a game of ball

And make the family wait for dinner.

This truth—and miss it no one can—

The bushing bride will soon discover

Her husband is a different man

From him who was her gracious lover.

Yet, should the women question me,

And dared I calmly to advise one,

I'd say the foolish man may be

More lovable than the wise one.

## Luther W. Epley, Former Farm Boy, Made Hobby Of Repairing Guns Into Full-Time Business At Littlestown

Luther W. Epley, "one time farm boy" and now a resident of Littlestown, is one of the few men who has been able to convert a hobby into a full time, paying job.

Epley is the last remaining practitioner in the country of the honorable trade of "gunsmith," a craft which for decades back before the county was created and long after its establishment brought top-ranking men to this area.

Like Topsy, Epley's business "jes grew," he told a reporter for The Gettysburg Times.

An employee at a Littlestown establishment, he carried from his farm days a deep love for "tinkering with all kinds of guns." He worked with his own collection and friends, who had difficulties with their pieces, began to ask Epley to repair them.

"The next thing I knew," he adds, "I had a good spare time business going in mending guns."

That was about 18 years ago. This past spring he found the gun business increasing so greatly he quit his job and took up the craft of gunsmith full time.

### Full Time Job

And a full time job it has proven. "People bring guns from Gettysburg, Hanover, York and all over this section," he says. While the reporter was there about 100 guns, from pistols up to antique shotguns were all over the place waiting their turn to be repaired.

Epley shows a beautiful piece of wood which he is turning into a stock for his favorite hunting rifle. He plans to put a cheek-rest on the stock and otherwise improve the set-up on his current rifle. "But I've been too busy working for the other fellow to get anything done for myself," he comments sadly.

As part time work he repaired about 200 guns a season. Since last spring he has been too busy with the pieces to count them. One thing has caused a tremendous increase in the number of guns to be overhauled—the soldiers sent back and brought back all kinds of weapons, most of which have to be put back into A-1 shape.

"And there are no parts available for them," Epley adds. "so the only thing that can be done in order to put them into operation is to make the parts that are broken or missing."

### Learned Hard Way

"What little I know about guns I learned the hard way," is the way he explains that he never studied formally to become a gunsmith. But his work proves that what he learned, he must have learned well.

Asked if there is any one thing that seems to cause the most difficulty in guns, he noted that "seems like everything that can possibly happen to a gun has happened to the ones brought here. Each one

LUTHER W. EPLEY

has a different ailment. There is very little in common between one rifle that needs repairs and another, although probably a majority of the difficulties pertain to the sights."

His father, P. W. Epley, who farmed near Hoffman's orphanage, in Mt. Joy township, was "a crank about guns, too," Epley recounts.

Above Epley's head as he works in the gun shop is an example of his father's skill as a shot. It is a huge eagle, mounted on a branch. The eagle was shot in Mt. Joy township by the elder Mr. Epley a good many years ago when eagles were still in abundance and long before they had been threatened with extinction and forbidden for the hunter.

### Repaired Odd Flintlock

The guns brought to Epley for repair include nearly every type of weapon. For Prothonotary Arthur Shields he repaired an old fashioned flintlock which, when he was through with it, looked, and operated as well as on the day it was made. A number of Civil war guns owned by George Rosensteel, proprietor of the National Museum here, were also repaired by Epley.

On the day the Times reporter visited the Littlestown gunsmith he was at work on a 16 gauge double barreled German pinfire shotgun sent home by one of the Littlestown men while overseas. He had secured the piece near Munich. The gun was the only one of its type Epley had ever seen. Its blunt hammers fell against pins which extended out through the breach from the shell.

Epley regrets there are no shells like that in the U. S. He would like to try the gun, just to see how it would work. The stock of the weapon was cut up in transit and Epley finished it with dull London oil. The antique piece was finished by some expert craftsman, who spent

hammers are engraved in the form of fish heads.

On the old gun Epley has placed the most modern of sights, the Nydar gun sight which in Epley's opinion is far better than anything ever previously invented. The sight consists of a large round glass front portion. The rear portion is a prism through which a circle and dot are projected. As a result, when the hunter sights through the mechanism he sees the circle and dot apparently projected upon the target. All he needs to do is to place the circle and dot on the target and he can't miss.

"It's adapted from the war time sights," Epley explains.

### Left-Handed Rifle

Another German rifle brought from overseas by a Littlestown GI is a left handed target rifle. The huge gun had a cheek rest for a left handed man and nearly every other contrivance an expert shot could think of to help him get a better sight and a steadier aim. In transit some of the parts were lost and Epley plans to make the parts in order to get it into operation once more.

His house, and his shop are filled with mounted animals and Epley is as much interested in hunting as in repairing rifles. He also has one of the largest collections of traps, 34 different types of them, in this section. Most of the traps came from (Please Turn to Page 5)

## DELEGATES TO CONVENTION OF FIREMEN PICKED

First reading of the revised by-laws of the Alpha Fire company was held at the monthly meeting Tuesday evening. After discussion, various changes and additions were made, which will be inserted and read for the second time at the September meeting.

President Wayne Arnold appointed the following delegates to represent the company at the Adams County Firemen's association in East Berlin on Labor Day: John Sterner, Henry Waltman, Wayne Arnold, Kenneth Sentz, Richard Adams, Edward Loeffel, Robert Koonz, Bernard Selby, W. E. Stutes, and Harry W. Badders; alternates: Glenn Ohler, Charles Fissel, G. Frounfelder, Carroll Oaster, A. Rimel, George Hornberger, Lawrence Toller, R. Spangler, Edgar Pfeiffer, and Edgar DeGroff.

Kenneth Sentz reported for the raincoat committee. This group will meet with a representative of the Mid-Western Manufacturing Co. at the fire-house next Tuesday evening at 7 o'clock. Various coats will be on display; and the company granted the committee authority to purchase a dozen coats.

### To Be In V-J Day Parade

Two candidates were nominated for membership, Fred Sentz and Paul Buckley. Fire Chief Jay D. Basehore reported one fire call for the month, with a loss of approximately \$5,000. The Charles Bupp barn was destroyed in that fire.

The company voted to buy two 50-foot sections of booster hose from the American LaFrance company for the company truck. The secretary was instructed to purchase various hose connections if available. The company authorized Henry T. Waltman to sell the O.C.D. pumper in any way that will be of advantage to the company. A donation of \$50 was reported from John V. Kindig for services at a recent fire.

The members discussed the possibility of holding a foodsale, carnival, or solicitation of the town. Action on the matter was deferred until the September meeting. There was also a discussion on re-organization of the Uniform Rank for the purpose of taking part in parades. The company voted to send a truck manned with uniformed members to participate in the parade on Adams County Homecoming day at Gettysburg next Wednesday.

The secretary was instructed to contact Roger J. Keefer, insurance agent, in regard to the possibility of increasing the death benefits and length of disability on the company's life and accident insurance policy.

Already busy with guns, the gunsmith also opened up an annex where he repairs lawnmowers. To make the work easier he invented a self sharpening mechanism. "Already I've had over 200 mowers and there seems no end to the ones that have to be fixed," he says.

A few minutes later Jordan appeared at the jail—but not to pick up his mail. He was to start serving a 14-day sentence for disorderly conduct.

Kalahar explained Jordan had no permanent address and his mail was sent to the jail—where he had been an inmate on different occasions.

The government's only remaining control over wages is a requirement of federal approval before any increased pay costs can be submitted to OPA as a basis for higher price ceilings.

Thus, Steelman's new ruling serves as a warning that employers may have to bear the entire cost of future pay increases granted where

## Calvin Coolidge, During the Trying Days of the 1920's Issued This Warning:

"We do not need more national development, we need more spiritual development. We do not need more intellectual power; we need more moral power. We do not need more knowledge; we need more character. We do not need more government; we need more religion. All of our learning and science, our culture and our arts will be of little avail unless they are supported by high character. Unless there be honor and truth and justice, unless our material resources are supported by moral and spiritual resources there is no foundation for progress. A trained intelligence can do much but there is no substitute for morality, character and religious convictions unless these abide. American citizenship will be found unequal to its task."

These words are as true today as when they were first uttered. Every generation must be instructed in moral and spiritual values, and to be most effective such instructions should begin in childhood. To "teach a child the way he should go" is still the essence of wisdom. The churches and Sunday Schools of America offer the youth and adults of this generation the moral and spiritual instruction which is so sorely needed. Won't you invite others to come with you this Sunday to Sunday School?

### Baltimore Livestock

CATTLE—Receipts in the cattle division of the Baltimore Union Stockyards Thursday of around normal proportions. Grass-fed steers predominated the run by a large margin and bulk of that class comprised weights above 1,100 pounds. A light supply of cows and meager numbers of heifers and bulls.

Trading in slaughter steers at an active pace, with outlet fully steady with Monday. Local and outside buyers competed freely as long as the supply lasted. Numerous carload sized lots, as well as a few smaller consignments, of average grade to top good grades of steers readily within a price spread of \$20.25 to \$21.50, latter price the highest noted. A few load and part load sized lots that graded medium to low good \$16.50 to \$19 and a load of mostly common light weights went on slaughter \$14.50. An early clearance of slaughter steers was accomplished.

There was very little of an attractive nature available in heifers. One truck lot of good 950-pound average \$18.50 and light common dairied individuals ranged \$14 or below. Good young heifer type cows lacking. Scattered sales of common and medium beef cows principally \$10 to \$14, with most offerings kinds \$13 down.

Beef cows again on a slow weak basis, despite light receipts of that class. Canners and cutters steady prices and appeared in proportionately better demand than beef type. Most sales \$7.50 to \$9.50, but light emaciated canners ranged \$5. Weighty beef bulls not represented today. Small supply of sausage bulls that graded common, medium and good \$11 to \$14. Replacement cattle consisted principally of medium and good light stockers \$15.40 to 17. Common kinds ranging \$12.50.

CALVES—The veal calf market active and fully steady with former sessions this week. Practical top \$18, with good and choice grades \$17, mostly \$18. Common and medium sorts \$12 to \$15.50 and a few culls \$8 to \$10. Weighty slaughter calves too scarce to make a market test. Compared with a week ago; veal calves steady throughout the week and closed firm. Weighty slaughter calves around steady, with undertone weak.

HOGS—Slight strength in the local swine market Thursday boosted prices of good and choice 160 to 300-pound barrows

## HAMBLETONIAN CAPTURED BY CHESTERTOWN

Goshen, N. Y., Aug. 9 (P)—A "no account" colt and a hospital-case driver hold the American trotting championship between them today, after a Hambletonian that saw so much money tossed around it was definite evidence the trotting horse is here to stay.

Chesty Chestertown, the colt who was rated so low in 1945 he wasn't even sent to the post as a two-year-old, and the Kentucky veteran, Tom Berry, who hurt his back in two spills in the past week, got together to take two out of three heats yesterday and pick up the \$28,047 winner's pot in the 21st running of the Corn Tassel Classic.

But of almost as much interest as the victory of the first California-owned horse ever to zip home in the buggy whip World Series was the way the Hambletonian records for crowd and betting were smashing all over the place. At the finish, the 16,015 customers, basking in the hot sun which dried out Bill Cane's Good Time track to lightning fast footing after a 24-hour postponement because of rain, had shoveled over \$300,000 into the mutual machines to sit in on the proceedings. Of this \$159,824 was fed to the iron men on the big race alone—three heats and the pre-race result pool—for an all-time Hambletonian high that put the trotters up among the big business members of the sports clan.

### Lost First Heat

The Hambletonian had been regarded as a wide open affair, with Chesty a slight favorite, but when the fancy stepping son of Volotte settled down to business, it was a breeze. Berry and his colt were caught off guard in the first heat and Victory Song, trotting's record priced yearling when he was bid in for \$37,000 by Mrs. James B. Johnson, Jr., of Rochester, Mich., got off winging and came home in 2:03.

Then the two champs went to work. Victory Song broke in the second heat, but it probably wouldn't have made much difference anyway, because Chesty came clicking home in 2:02½, a 1946 record mile for a three-year-old.

And in the third mile, he showed definitely he was head man when he kept right on coming as Victory Song and Deanna ran at him, and he hit the wire in 2:03½.

Deanna, last year's two-year-old champion wound up third in both the first and third heats and second in the second dash to take down third money with Don Scott, from the barn of Tobacco-Salem, N. C., fourth in the final standings; Westfield Girl, recent \$25,000 buy of E. J. Baker of St. Charles, Ill., fifth, and Walter Spencer, from the local Arden Homestead stable of E. Roland Harriman, last year's winning owner, sixth in the field of 11.

## Roundup Sports

By SID FEDER

Goshen, N. Y., Aug. 9 (P)—Sam Cordovani, the ex-footballer who recently split out with the New Buffalo (All-American conference) pro grid team, will run night trotting races at the Toledo (Ohio) half-mile track. . . . Boss Frank Walker of the Rocky Mount (N.C.) ball club took a large chance turning down some attractive big league bids for Pitcher Bill Kennedy last spring. . . . And the gamble paid off, because the Red Sox recently went high up in five figures to buy the strikeout sensation who fanned close to 350 already this year, and is starting to crowd Virgil Trucks' all-time one-season mark of 418. . . . Somebody should have tipped off Bobby Veder, the jockey who's just been suspended for life in Chicago on attempted bribery charges, that Doug Dodson is one jockey who couldn't "fix" with the U. S. mint. . . . A top trainer told us only last fall that if he operated a race track he'd pay Dodson and Toronto Teddy Atkinson \$15,000 a year a-piece just to ride at his place. . . . Because between them they'd keep everything on the up-and-up they're that good . . . and that honest. . .

### DIS-A AND DAT-A

Bobby Riggs has signed as playing tennis pro at the Grossing Country club in Ferndale (N.Y.) . . . and open Champ Lloyd Mangrum just broke the course record at the same club with a fancy 65. . . . Look for a rhubarb when it comes time to pass out 1947 racing dates to New Jersey's three tracks. Monmouth wants a later meeting than its early-summer one this year; Atlantic City wants to keep what it has which is heard from. . . . And none of them now—and Garden State is still to be want to run concurrently with the one-month Delaware meeting ending July 4, because Delaware is close enough to be rated a competitor. . . . Chet Adams, the booter the Cleveland pro football Browns borrowed from the ex-Cleveland (Los Angeles) pro rams, hasn't been able to get in any place-kicking practice yet because there aren't a pair of kicking shoes in camp big enough to surround his size 12's. . . .

### Ponies For Sale

Five mares, all with foal, and quiet for children. Also four horse ponies; good buggy; six sets good harness, five good bridles; seven saddles.
